Brent & Dave

These are the details of Plan to Protect's 2016 webinar on identifying that spiritual and emotional abuse is real and happening in churches today.

They are encouraging a safe environment where whistleblowers like us can come forward to ask for their allegations to be fairly heard and investigated.

Please watch this recent webinar on spiritual abuse by PtoP. We are also attaching the slides from the webinar that have specific recommendations to identify, combat and prevent spiritual abuse

It is our understanding that copies of this presentation were circulated by Pastor Tim Beadle to all Western District CMA coaches in June of last year.

Please confirm receipt of this communication.

Barry & Jennifer
